DEC 13–14 DRAKE PASSAGE | LEGENDARY WATERS

The journey south toward Antarctica is an exciting one, furthered by singular, voyage-long access to our knowledgeable Expedition Team and enrichment experts both on board and on shore. Set out into the Drake Passage, a 600-mile-wide swath of water where the Southern Ocean currents are squeezed between South America's southern tip and Antarctica's northernmost reaches. An important trade route in the 19th and early 20th centuries, its stormy waters and icy conditions once made the journey a difficult one, though your stabilizer-equipped luxury expedition cruiser handles it with ease.

DEC 15–19 ANTARCTICA | THE WHITE CONTINENT

As the Antarctic Peninsula and its offshore islands appear on the horizon, a sense of excitement begins to build. Dependent on weather, sea, ice and wildlife conditions, Antarctic expeditions demand spontaneity and no two days are ever the same. With that in mind, your Captain and Expedition Team carefully plan your active, curated itinerary and daily excursions that may include the following areas: **Antarctic Sound:** At the northernmost tip of the Antarctic mainland, this body of water features some of the best sightseeing on the peninsula and a proliferation of giant icebergs. Noted for its vast numbers of bird species, the sound is home to the largest breeding colonies of Adélie penguins in Antarctica. Look forward to opportunities to land on remote, wildlife-laden islands as well as possible opportunities to experience a continental landing on the northwest tip of the Antarctic Peninsula. **South Shetland Islands:** Antarctic research stations, remarkable history, amazing geological features and abundant wildlife define these islands off the shore of the Antarctic Peninsula. Your Expedition Team looks for opportunities to visit a wide range of sites: working research stations, volcanic islands and historic sites as well as gentoo, Adélie and chinstrap penguin rookeries. **Danco Coast:** Bordering the South Shetland Islands along the Antarctic continent, the Danco Coast is famed for its scenic, jaw-dropping waterways. From the comfort of 'Le Lyrial,' you may sail through some of its most stunning and photogenic channels, straits and bays. Each cruise day begins with an early breakfast followed by a morning excursion on swift Zodiacs (sturdy inflatable boats). Piloted by expert A&K drivers, each excursion is accompanied by lecturers and joined by groups of no more than 10 guests. After mornings discovering native species and striking terrain, return to 'Le Lyrial' for lunch and time to relax. Or observe the wildlife-rich waters that surround you, searching for everything from fin whales, humpback whales and orcas to Antarctic and imperial shags. By afternoon, set out for the day's second planned excursion, which may include visiting a scientific research station, hiking on a sheltered beach packed with basking crabeater seals, or circumnavigating the ice floes and icebergs that serve as floating homes to seals and penguins. After full days of adventure, evenings aboard your luxury cruiser invite you to unwind over cocktails in the cozy lounge before dinner in the elegant dining room. At night, choose to recap the day's discoveries with your naturalist guides, chat on deck with fellow guests or seize the opportunity to capture photos in the stunning low light characteristic of Antarctica's long, ethereal twilight.

DEC 20–21 DRAKE PASSAGE | MEMORABLE RETURN

Bid farewell to wondrous Antarctica and begin your cruise back to Ushuaia at the southernmost tip of Argentina. The ship's return through the Drake Passage is an interlude for recap and reflection, offering time to compare notes with your expert lecturers on the wildlife, history and geology of the White Continent. Spend time on board with newfound friends in the comfortable common spaces of 'Le Lyrial,' enjoy quiet relaxation on your own private balcony or absorb more fascinating lectures by your captivating Expedition Team. While cruising through this historic passage, you may spot various species of whales and seabirds, including the elusive albatross and the giant petrel, an opportunistic predator and scavenger nicknamed the "stinker." The immense albatross is an especially stunning sight to behold — these wandering birds boast a wingspan approaching 12 feet and are capable of gliding through the air for hours in search of food.
